EXECUTIVE SUMMARY

(i) DATA HIGHLIGHTS: 1997 TO 2005

Manitoba merchandise exports to the rest of the world were $9,863 million in 2005, up 34.8% from the 1997 level of $7,314 million. Canada's total merchandise exports during the same time frame increased 45.7%, from $280,034 million in 1997 to $408,032 million in 2005. Between 2004 and 2005, Manitoba's foreign exports increased by 3.4% while Canada's foreign exports increased by 6.0%.

Manitoba's merchandise imports from other countries grew from $7,540 million in 1997 to $11,693 million in 2005, an increase of 55.1%. Between 2004 and 2005, Manitoba's imports increased by 11.9%.

Manitoba's agricultural exports fell from $2,019 million in 1997 to $1,907 million in 2005, a decrease of 5.5%. Between 2004 and 2005, Manitoba's agricultural exports fell $54 million or 2.8%: there were no exports of live bovine animals during 2004 because of the BSE (mad cow disease) closing the United States border in May, 2003. Manitoba's non-agricultural exports rose from $5,295 million in 1997 to $7,955 million in 2005, an increase of 50.2%. Agricultural exports as a percent share of total Manitoba exports changed from 27.6% in 1997 to 19.3% in 2005 while non-agricultural exports as a percent of total exports rose from 72.4% in 1997 to 80.7% in 2005.

Manitoba's major trading partner is the United States. Exports to the United States grew from $5,382 million in 1997 to $7,507 million in 2005, an increase of 39.5%. Exports to non-U.S.A. countries during that same time period went from $1,932 million to $2,355 million, an increase of 21.9%. Consequently, the United States' percent share of Manitoba exports has risen from 73.6% in 1997 to 76.1% in 2005. Only two of the last nine years have produced double digit annual growth in export trade with the United States, averaging a compounded 5.8 percent per year. Exports to the U.S.A. for 2005 were 4.9% higher than during 2004, while imports from the U.S.A. were up 12.3% during that same time frame.

While the overall growth of Manitoba exports was 34.8% between 1997 and 2005, the export growth to NAFTA countries was 40.8% and accounted for 78.2% of all foreign merchandise exports in 2005. Manitoba exports to Pacific Rim countries increased by 40.4% between 1997 and 2005 and accounted for 13.0% of total exports in 2005. Exports to NAFTA countries increased by 4.0% from 2004 to 2005, while exports to Pacific Rim countries decreased by 4.9% during this same time period. Exports to other areas (E.U., Middle East, Africa, Latin America and other areas) increased by 11.6% between 2004 and 2005.

Manitoba manufacturing exports grew from $4,343 million in 1997 to $6,410 million in 2005, an increase of 47.6%. Manufacturing exports to the U.S.A. rose from $3,694 million to $5,188 million during that time frame, a 40.4% increase. Manufacturing exports to the U.S.A. accounted for 80.9% of Manitoba's total manufacturing exports in 2005. Manufacturing exports accounted for 65.0% of total exports during 2005, while manufacturing exports to the U.S.A. accounted for 69.1% of all exports to the U.S.A.. Manufacturing exports to all countries fell by 0.5% between 2004 and 2005 while manufacturing exports to the United States fell by 3.5%.

For every 100 dollars of merchandise imported into Manitoba in 1997, 97.0 dollars were exported: 2005 saw 84.3 dollars exported for every 100 dollars imported. Similarly, the export to import merchandise ratio for trade with the U.S.A. went from 83.9 in 1997 to 78.4 in 2005. The increase in the value of the Canadian dollar relative to the U.S. dollar means that imports from the U.S.A. were more expensive during 2005.

The following twelve charts highlight Manitoba's trade performance over the last nine years. Generally, growth rates over the last 1, 3, 5 and 8 years are provided.

INTRODUCTION:

This report has been prepared by the Manitoba Bureau of Statistics (MBS) as part of its economic statistics program. Its purpose is to provide information for Manitoba on the importance and impact of international merchandise trade.

This publication provides international merchandise trade data by country, commodity and industry. The information is from Statistics Canada's International Trade Division. Merchandise trade data presented covers the 1997 to 2005 calendar years.

Users should be aware that the export data is on a "province of origin" basis, while the import data is on a "province of clearance" basis. Therefore, a significant quantity of imports from other countries are not counted as they are cleared through custom ports in other provinces and then shipped to Manitoba (MBS would count these as interprovincial imports). This implies that the trade balances calculated for individual countries could overstate Manitoba's actual position.

All commodity data presented in this report are based on the Harmonized System (HS) which was adopted for both exports and imports in 1988.

The Manitoba Bureau of Statistics has available additional detailed information which can be supplied to interested users on a cost recovery basis. Export/Import information that can be provided includes:

i) individual commodities for specific countries
ii) individual commodities by country (volume and dollar value) at the 4, 6, 8, or 10 digit HS level
iii) commodities by country for specific industries or sectors.

Trade information is also available in **MBS Trade**, an information system that provides the top 20 commodity exports or imports for an individual country and 25 commodities for each US state or trading area. Access to this system is available on a subscription basis.

For further information regarding MBS Trade or custom requests, please contact Marcel Chartier at (204) 945-2991.

NOTE TO USERS:

This publication contains the revised trade information for the 2002 to 2005 period. These are the most current numbers available from International Trade Division. The 2003 to 2005 information is subject to further revision in February, 2006.

The presented export information is as released by Statistics Canada. MBS has made no revisions to Statistics Canada's cereal grains, oil seeds or crude petroleum export values for Manitoba. MBS adjusts the value of exports for these commodities in its Manitoba Economic Accounts. These adjustments are undertaken to better reflect the value of the foreign export of these commodities to the provincial economy.

In this publication, the MBS has made adjustments to the import statistics released by Statistics Canada. Firstly, adjustments have been made on the 1997, 1998, 2001, 2002 and 2003 aircraft imports from France to better reflect Manitoba's true share of these imports, which are being used throughout Canada. The second adjustment is that the MBS import value excludes commodities classified as "Imports from Canada".

Due to valuation issues, MBS has also made revisions of Coin (HS 7118) exports to the United States and Articles of Copper, nes (HS 7419) imports from the United States for the 2000 calendar year. The $898.9 million reduction in Coin exports translates to a 9.4% reduction in total exports for 2000. Similarly, the $1,340.3 million reduction in Articles of Copper, nes imports translates to a 12.5% reduction in total imports for 2000.
